Glenwood Springs Community Center Closed for Maintenance

GLENWOOD SPRINGS, CO – The Glenwood Springs Community Center will be closed for maintenance from May 16-22.

The Community Center will complete a number of maintenance projects during the closure including the application and curing of the new gymnasium floor, resurfacing and painting the fitness studio, coring and installing new climbing wall anchors, annual elevator servicing, and a number of other improvement projects.

The majority of the maintenance is scheduled to last until May 22 with a building re-open date of May 23. However, the gymnasium and dance/fitness room will both re-open on May 29.

These facility improvements will be a great value to the Community Center's guests, programs, and classes upon re-opening. The City of Glenwood Springs apologizes for any inconvenience this may cause Community Center members.
