Veltus Park Vegetation Mitigation to Include Goats

GLENWOOD SPRINGS, CO – The City of Glenwood Springs’ Parks and Fire Departments are continuing their fire fuel mitigation work at Veltus Park with assistance from goats. Several goats will aid in vegetation cleanup to reduce the amount of fuels as part of an ongoing fire mitigation project.

All goats will be in a fenced in area and should not impact park activities. The goats and their herder will be at Veltus Park for approximately three or four days beginning September 17, 2018. The City asks park goers not to disturb the goats during their work.
