PRESS RELEASE

July 18, 2019

Chip and Seal Work Continues the week of July 22

GLENWOOD SPRINGS, CO – The City of Glenwood Springs continues street maintenance scheduled for this summer with several residential streets near in the downtown core getting chip seal work July 22-26.

Chip seal work will begin on Monday, July 22 and last through the week on the following streets:

- Blake Avenue from 7th to 13th Streets
- Bennett Avenue from 7th to 13th Streets
- Bennett Avenue from 21st to 23rd Streets
- Palmer Avenue from 7th to 12th Streets
- Pitkin Avenue from 8th to 14th Streets

The above streets will remain open during this work; however, parking will be impacted. The Streets Department asks residents to abide by traffic control and no parking requests Monday through Friday next week within these areas.

These streets were crack sealed or partially milled and overlaid with asphalt last year for continued street maintenance. Some spots on these roads will also be milled prior to chip sealing to create a smooth surface to fill in larger cracks and potholes. This maintenance aims to extend the life of the roadway.

Additionally, 27th Street east of the 27th Street Bridge to CO-82 will be milled and overlaid on Thursday, July 25 from 7AM-7PM. The road will remain open for this work and will occur prior to the bridge closure at 7PM on Thursday for the 27th Street Bridge construction project.

Street maintenance work has been occurring across the City this summer. For more information on street projects, please visit www.cogs.us/StreetMaintenance.

Reminder: The Midland Bridge will be closed July 19-20 for asphalt re-decking work.
