General Contractors - It is your responsibility as the General Contractor (GC) to make sure that all sub-contractors working at your job site are licensed and insured in compliance with the City of Glenwood Springs Municipal Code Title 050.040

A contractor is responsible for any type of construction she/he may contract to build in the City of Glenwood Springs. Building permits must be obtained before any work can be started.

The Building Inspector, as required by the International Building Code, International Residential Code, International Mechanical Code, International Plumbing Code, and the building permit conditions, must inspect all work. A general contractor must have a means of knowing when plumbing and electrical work that is subcontracted is being installed properly.

I certify that the above information is true to the best of my knowledge.
